

Mussarat Shamsher

Agentic AI Developer

Aspiring Agentic AI Engineer with hands-on experience building multi-agent systems, RAG applications, and AI automation solutions using OpenAI Agents SDK, Python, FastAPI, and LLM. Developed production-ready AI applications across customer support, CRM automation, translation, and computer vision domains. Passionate about building autonomous AI systems that solve real-world business problems.

Work Experience

AI developer & Co-founder

Built agentic AI applications using Python, FastAPI, OpenAI Agents SDK, and Gemini API.
Developed Digital FTE CRM Factory, a multi-agent platform for business automation.
Created AI solutions including translation, FAQ, and fraud investigation agents.

Innolyze.com
June 2025 - Present

Agentic AI Intern

Built intelligent applications integrating RAG agent and automated reporting tools, leading to increased efficiency and user satisfaction.

Nexe-Agent
May1st - May31st, 2026

AI Intern

Designed multilingual translator & FAQ agent and Object detection & tracking python application.

CodeAlpha
June27 - July31, 2026

AI Engineering Intern

Developed Real Estate Price Prediction and Customer Churn Prediction models.
Built a Smart Attendance System using facial recognition and OpenCV.
Created an AI Content Analyzer for NLP-based content evaluation.

Afynix Digital
June 14 - July31, 2026

Education

M.Sc. in Economics

Bahaudin Zakriya University Multan
2017 - 2018

Certified Agentic AI Engineer & Developer

Governor House sindh
Feb 2024 - Present

SEO & Graphics Design

DG Skills.pk

Aug 2025-Nov 2025

Projects

Digital FTE CRM Factory
Tech: OpenAI Agents SDK, FastAPI, Next.js, Gemini API

- Developed a multi-agent CRM platform with Sales, Support, Project Management, and Content agents.
- Implemented agent orchestration and workflow automation for business operations.
- Built full-stack interface using Next.js and FastAPI.

Demo : <https://mussarat-digital-fte.vercel.app/>

Physical AI Book
Tech: Python, RAG, OpenAI Agents SDK

- Built a RAG-powered assistant capable of retrieving and answering questions from uploaded books.
- Implemented semantic search and document retrieval workflows.

Demo :
AI Translator & Semantic FAQ Agent
Tech: Streamlit, Gemini API, Python

- Developed multilingual translation and semantic question-answering capabilities.
- Integrated LLM-powered responses with user-friendly interface.

Smart Attendance System
Tech: OpenCV, Python

- Developed facial recognition attendance tracking using webcam input.
- Automated attendance logging with timestamp generation.

Fraud Detection Agent

- Developed an AI-powered fraud investigation agent to analyze transaction data and identify potentially suspicious activities.
- Built an interactive Streamlit interface enabling users to investigate transactions and receive AI-generated insights.
